

GLOBAL DREAMS

Trusted Solutions for a Sustainable Maritime Future

Delivering Excellence in Vessel Inspection, Marine Supply, and Green Technologies Across the Globe.

"We combine hands-on expertise with reliability and innovation to keep ships running safely and efficiently. From detailed inspections to cutting-edge green technologies, we deliver smart, compliant, and future-ready solutions that support the world's maritime industry."

GREEN TECHNOLOGY

"Advanced eco-efficient solutions that reduce emissions and enhance performance — from shore-power and hybrid battery systems to scrubbers, propellers, and energy-saving generators. We help shipowners meet global environmental standards while moving toward a cleaner, smarter, and more sustainable future at sea."

"Backed by Key Supplier's, Our Core Strength lies in supplying
Quality Products at competitive Prices."

GLOBAL DREAMS

Trusted Solutions for a Sustainable Maritime Future

OUR SERVICES

DRY DOCK ASSISTANCE

*Comprehensive Dry dock Support to Owners.
Yard selection, arranging spares, services. Daily attendance to supervise repairs and projects.
Final inspection, sea trial assistance and documentation for smooth sailing*

VESSEL INSPECTIONS

*Condition and Compliance Surveys to evaluate the maintenance standards and statutory compliance.
Damage investigations.
Vessel Take over assistance including inventory verification and technical handover*

UNDERWATER SERVICES

*Certified diving teams delivering hull cleaning, propeller polishing, and UWILD inspections with precision and safety.
Underwater repairs of Propellers, overboard valves, Sensors.*

VALVE SUPPLY & SUPPORT

*Good stock of all the valves in IMPA Code book.
Special valves as per Order.
Comprehensive range of class-approved marine valves, actuators, and controls
From cargo and ballast systems to engine room valves,*

GLOBAL DREAMS

Trusted Solutions for a Sustainable Maritime Future

OUR SERVICES

STEEL & PIPE REPAIRS

Expert fabrication and repair services for all types of steel and piping work — from deck modifications to major structural renewals. Using certified welding and marine-grade materials, we ensure every job meets class standards, restoring strength, safety, and reliability with minimal downtime.

ELECTRICAL & AUTOMATION

Comprehensive electrical and automation solutions for modern vessels — including control panels, PLCs, sensors, and power systems. Our marine engineers deliver expert troubleshooting, upgrades, and calibration to keep your vessel safe, efficient, and fully compliant with class standards.

NAVIGATIONAL EQUIPMENT & CALIBRATION

End-to-end service for gyro compasses, autopilots, radars, AIS, and ECDIS systems. Our certified technicians perform calibration, testing, and annual checks to ensure precise, compliant, and reliable navigation for every voyage.

IT & COMMUNICATIONS

Integrated onboard connectivity solutions including Starlink, OneWeb, VSAT, and 4G/5G systems. We design, install, and optimize networks, routers, and Wi-Fi to deliver secure, high-speed communication between ship and shore — keeping your crew, systems, and data seamlessly connected worldwide.

Special Products

WaterKey

- Class Approved firefighting equipment SOLAS II-2 10.7.3.1 compliant.
- Operates at Low water pressure.
- Cutting time less than 30 second.
- Light weight for fast deployment.
- Cost effective

ExSafe PV Valves

- Class Approved PV valve.
- Large Flow rate / excellent sealing.
- Cost effective
- Most of the sizes are in stock -DN 50 to DN 200
- Warranty for the product

Tong Zhou Propeller / PBCF

- Approvals from all Classes.
- Retrofitted 100s of vessels.
- Data collection to commissioning - Only 180 days
- HVAF (Cap) and PSV (Ducts)
- Own Foundry
- Energy Savings 6-10%

AMP

- Turnkey project -3d scanning, feasibility study, design, supply, installation and commissioning.
- HYBRID Option available
- Compact design- Transformer in the container.
- Stainless steel -inside and outside

GLOBAL DREAMS

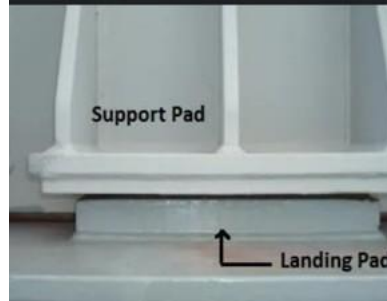

Trusted Solutions for a Sustainable Maritime Future

Special Products

Anchors and Chains

- Class Approved Anchors/ Chains.
- Short delivery time.
- Competent Pricing.
- Worldwide Delivery.
- All sizes available
- Full mooring system for New Build vessels

Hatch cover landing pads

- For Hatch covers of Dry vessel.
- Good inventory available in China.
- Reliable and time-tested product.
- Rubber packings for hatch cover available.

GRE Pipe Repairs

- Team in China and Singapore.
- Rapid Mobilization to minimize downtime.
- Skilled in Butt joint, leak arrest, Rebuild of GRE.
- Repair procedure approved by Class.
- Voyage and Dry dock Repairs

Lashing Equipment

- Container Lashing equipment – turnbuckles, lashing rods twist locks.
- Ensuring compliance with container securing manual.
- Lashing eyes and base cones.
- Reefer sockets cables and fittings.
- Timely delivery to ports worldwide.

At Global Dreams Marine Services, we bring together certified quality, global expertise, and sustainable innovation to support vessels and operators around world.

Certified & Class Approved

Every piece of equipment we supply comes with valid certification and full class approval—ensuring compliance, reliability, and peace of mind for our clients.

Global Reach

With a worldwide logistics and technical support network, we deliver spare parts, solutions, and services wherever your fleet operates—on time on on board

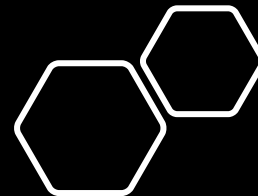

Expert Team

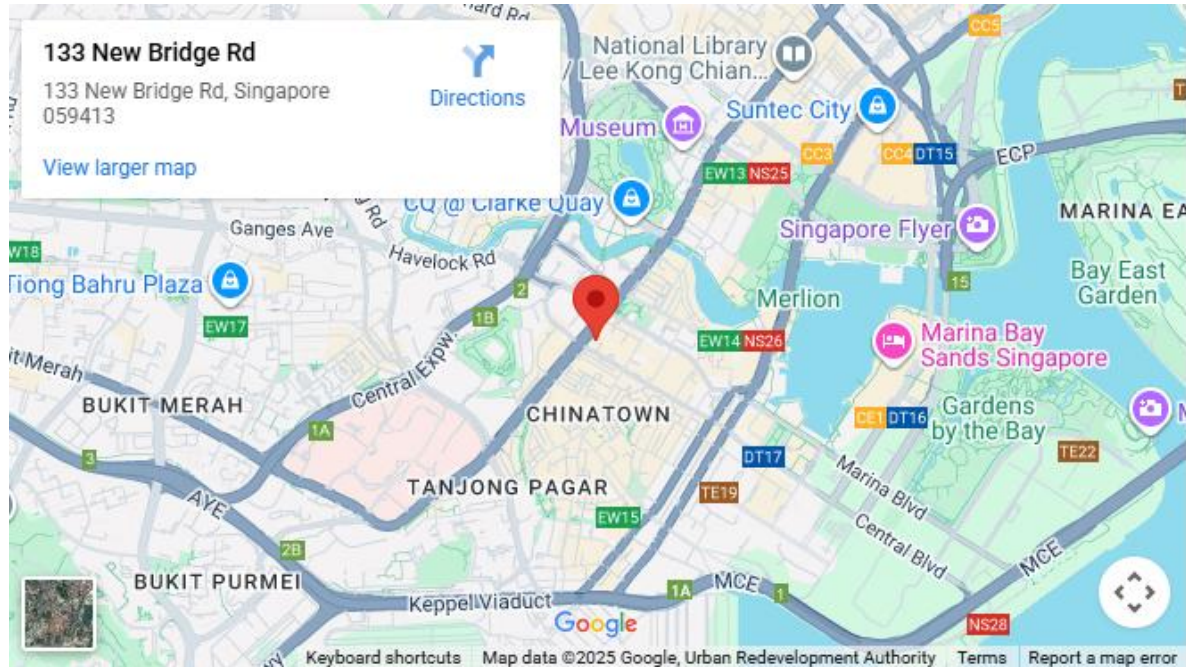

Our operations are managed by seasoned marine professional with decades of hands-on ship management, technical, and inspection experience—ensuring precision and accountability at every stage

Sustainability

We are committed to eco-efficient and emissions-reducing technologies that help our partners meet modern environmental standards and move toward greener operations.
